Subject: Request for statistical support from ERT/SERAS

Statistical support for the Hurricane Harvey Response has been requested to support the response in developing and preparing quality assurance project plans (QAPP) and quality assurance sampling plans (QASP), and for the evaluation of pre- and post-sampling data which has been and will be collected at waste collection pads. In addition, statistical evaluation of other collected data may also be requested from the SERAS contract statistician.

The ERT Hurricane Harvey Response work assignment is WA-335; the contract issued by ERT for SERAS contract support is **EP-W-09-031**. \$10,000 is being requested for this contractor support.

Thank you for your assistance with this matter. If you have any questions, don't hesitate to contact Sella Burchette at 732-321-6726, or myself at 513-470-8662.

Gary Newhart
